

# MEIRZHAN SATTIBAYEV

---

## Web Developer

Almaty, | 8 747 450 30 74 | meznfortune@gmail.com

## ABOUT ME:

---

I am a highly motivated and ambitious student with improved logical thinking skills and good knowledge in programming. Also, I have passion for my goals and am ready to take daily challenges to achieve them. Consistency, ability to work in a team and skill of clear communication are my crucial strengths.

## COMPETENCIES:

---

I know C, C++, and Java languages at intermediate level and have already completed "Data Structures" course on Udemy. Also, I have been learning the OOP on C++, which was followed by small projects such as creating the nim game using the C++ language. Currently, I am actively studying the algorithms and completing the course from Yandex "Trainings for algorithms 1.0 and 2.0" and planning to complete the course "Data structures and Algorithms" on coursera platform. One of my final goals is to get an offer from FAANG or Meta by the end of 3rd year of Bachelor.

## SKILLS:

---

- Basic knowledge in:
  1. HTML, CSS, Bootstrap
  2. JavaScript
  3. TypeScript
  4. Angular framework (component, service, sending, requests to backend server and getting responses)
